Rebecca Spark

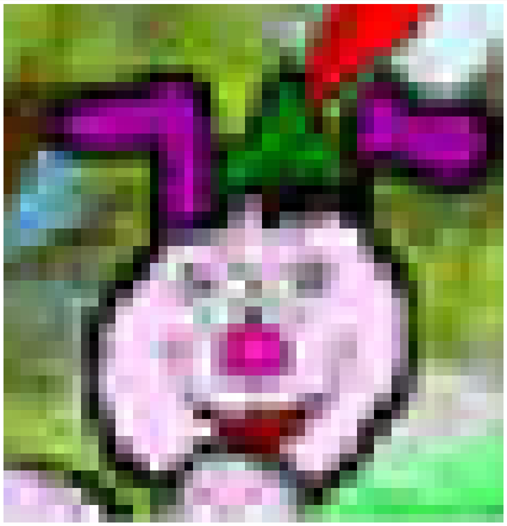
WARNING! DESPITE HER GETTING TERMINATED, DO NOT ADD THE FACT THAT SHE GOT TERMINATED FROM SCRATCH AS A REDEEMING QUALITY. ANYONE WHO DOES SO WILL RECEIVE A 1 WEEK BLOCK. YOU WILL ALSO GET A 1 WEEK BLOCK IF YOU REMOVE THIS MESSAGE.

Rebecca Spark Was a user who joined Scratch in June 2019 and got her account terminated on February 9, 2020. She also haves a YouTube account in May 2019, but got terminated in December of 2019.

Why She's Crummy

1. To get the elephant out of the room, her Scratch projects are rather bland and only consist of her whining and ranting about shows she hates.
2. She thinks that Fred and the Nature

Rebecca Spark



Behold! The hater that caused ReddyComedian to get a toxic hatedom!

Gender: ***Female***

Type: ***Womanchild***

Status: ***Terminated***

Gang (a supposed 80s version of *Nature Cat*) exists when it doesn't. She has also bashed *Nature Cat* for being an inferior "reboot" of it.

3. Heck, she even went as far as creating an imdb page for Fred and the Nature Gang with reviews from her and her sockpuppet accounts.
4. She is a two-faced liar. She has made both positive and negative reviews for shows she likes and hates on IMDb and Common Sense Media, such as *Nature Cat*. She also claims sometimes that she has kids, when

she's really just an immature womanchild on the internet.

5. She also makes godawful rants and grounded videos.
6. She hates shows even before they're released.
7. She's a huge nostalgiatard, as she thinks anything modern is inherently bad, and worships her childhood shows like they're the best things ever.
8. She makes fake Fred and the Nature Gang episodes on YouTube, but they're really just ruined episodes of the Beethoven cartoon.

9. She once cyberbullied a user called BoxwoodExpress all because the latter made a good review on *Molly of Denali*, which shows that Rebecca is an opinion disrespecter. Also, she told her ***TO DIE*** all because of her opinions. The videos have been taken down, but screenshots exist in this video made by BoxwoodExpress.
10. Her reaction videos are of cartoon characters crying, which shows she is an extremely spoiled, bratty crybaby womanchild. She's basically Caillou if he were a girl.

11. She makes incredibly stupid ripoff claims, like that *Molly of Denali* is a ripoff of *Wild Kratts*, *Madeline* is a Rip-Off Of Strawberry Shortcake, and that *Xavier Riddle and the Secret Museum* is a ripoff of *Little Einsteins*. Seriously? None of those shows have anything in common!
12. Her art is horrible; even a six-year-old can draw better than her.
13. Even though it's very unlikely that she actually is a parent, she acts a lot like a soccermom / moral guardian.
14. She has a very bad habit of making a lot of sock puppet accounts to review

bomb shows that she hates, especially on Common Sense Media. Check out all these Awful reviews of *Xavier Riddle* , all of which were made by Rebecca Satan.

   - She also Did the Same Thing With Babar . Calling it a Ripoff of a ***Fake Show***. and Her Sock puppet Accounts Were Complete SJWs as Well.

15. She disables comments on her Fred and the Nature Gang videos, proving that she can't take criticism.
    - When NeptunePerson2018 called her out on Scratch that Fred and the Nature Gang is fake,

Rebecca deleted the comment out of cowardice.

16. Her IMDb and Common Sense Media reviews are the worst. She bashes shows and movies nonstop, always has her head up her ass, and hates popular things just to seem cool and edgy.
17. She's a hypocrite. She praises Peg + Cat even though Peg can be a brat sometimes, and hates other shows like Xavier Riddle even though the characters from that show aren't brats at all.

18. She overuses the terms "freak", "stupid", "trash", "baby show", "overrated" nonstop.
19. Absolutely no redeeming qualities whatsoever.
20. She abuses and extorts Brian Coukis for art requests for her fake TV shows.
21. Not Just That, But on TheTopTens, She Also Made Users To Make (Low Quality) Lists Against Their Wills. Even up To The Point here They if They Were At An Important Event Such as Church, She Would Rudely Act Impatient Toward That User.

Heck, This Post Made By Rainbowkid38 Even Tells You Some Of Bad Things She Did. Though Thankfully, She Was Tricked into Retirement by Rustlers.

  - And to Make Things Worse, She Gets Away With Enslaving Other Users and Acting Hypersensitive When RadioHead03 Called Her Out For Her Rip-off Claims. but Innocent Users Like Userguy44 Get Suspended.

22. She thinks that *Scribbles and Ink* is a TV show when it's just a game on the PBS Kids site.

23. She says she's an adult, but she doesn't act like it. Making her a womanchild.
24. Her Scratch projects are horrible, as they are all whining and complaining about certain shows and they look like they were done in MS Paint.
25. Her fanbase is toxic, almost as toxic as Lily Orchard's and Riley The Wander Over Yonder & Regular Show Guy's fanbase. They worship her and kiss her feet every chance they get, and they also believe in her fake shows like *Fred and the Nature Gang*

and *Ziley and the Crew* and bandwagon on her opinions.

   - And To Add Insult to Injury, A User Named ReddyComedian Called Out Her for One Of Her Fake Shows and **GUESS WHAT?** The Majority of Her Fanbase (With The Exceptions of Nintendofan2384, Rainbowkid35 and a Few Others) Got Mad At Him and **Even Made An Anti-ReddyComedian Club**! Thankfully, the studio got deleted and TorchicFan2007 got banned.

26. In 2019, she vandalized the *Let's Go Luna!* wiki because she stupidly hates

the show. Luckily she was blocked.

27. She thinks that *Foster's Home for Imaginary Friends* is a "rip-off" of *Cyberchase*, and Sidekick (A Show on Qubo) A Gravity Falls Rip-Off . These shows have nothing in common, making her dumb.
28. Her rip-off claimings are **WORSE** than Riley's rip-off claimings.
29. She worships the 90's as it was the best thing ever, which is not true since many bad things happened in the 90's.
30. She tries way too much to be hip and cool. For example, she hates Gravity

Falls just because it's popular.

31. **"I hate Wally Down Under because it sucks."**
32. Her OC, Purple Cat, is poorly drawn.
33. Like BorisERufusFanAgain, she complains over things from the past, for example, she screamed over the Leapster getting discontinued in **2012**.
34. She's sort of sexist, since she never cares about boys.
35. She can't decide what opinion she has. For example, she hates Nature Cat, but she liked it for a period, and hated it again.

36. One of her white knights discovered this page and told her in the comments section on her profile page.
37. One of **her Projects Actually** Contains The Phrase "DIE YOU FREAKING DUMB*SS" Meaning She Broke the Community Guidelines.

The Only Redeeming Quality

1. She does have a point that the Clifford 2019 reboot, and the leaked 2020 movie pictures do look pretty bad.
